"If you want to find the secrets of the universe, think in terms of energy, frequency, and vibration" - Nikola Tesla

Dear Friend,

In 1856, in modern day Croatia, the world's most brilliant, gentle and beautiful mind was born.

His name was Nikola Tesla, and he was undoubtedly the smartest man who ever lived.

His understanding of the universe, while he was alive, was decades ahead of anyone in the world. He used that understanding of the universe to uncover secrets and develop inventions we are only beginning to understand today.

Imagine a man who died in 1946 created technology we are just starting to understand!

He was able to do that because he knew a secret about the universe, and now you can use that exact same secret to get anything you want out of life. Stick with me for a few minutes, and you'll see how the Tesla Code can help you shape your life into anything you want it to be...

Anything you want, the Tesla Code can deliver easily and quickly.

Tesla used this secret to become such a brilliant man it is rumored when a reporter asked Einstein how it felt to be the smartest man in the world, he responded, "I don't know, you'll have to ask Nikola Tesla."

In many ways, Tesla invented the modern world. We've all heard how Thomas Edison invented the light bulb and is responsible for the power grid in the US. What you might not know is, Edison harnessed direct current, which required huge electrical lines and power stations every two miles.

Tesla figured out how to harness Alternative Current, which we use today to run power lines hundreds of miles and deliver extreme amounts of power through very small wires.

But Tesla did much more than that...

- he mastered wireless transmission of electricity,
- created florescent light bulbs,
- was a central figure in developing X-Ray technology,
-

- he invented radio (Marconi made it famous but his patent was overturned),
- invented the electric motor,
- invented remote control technology,
- invented robotics, the laser,
- invented Wireless communication...

and he was creating a free, clean electrical grid when the power elite who backed him pulled the plug because they wanted to meter and sell electricity rather than give it to everyone FREE.

Even today we are just only beginning to understand this man's higher level works...and he died in 1943!

## Tesla's Most Amazing Discovery!

Tesla is quoted as saying: "My brain is only a receiver, in the Universe there is a core from which we obtain knowledge, strength and inspiration. I have not penetrated into the secrets of this core, but I know that it exists".

The fascinating thing is...he was correct. We have the ability to access a core of unlimited knowledge and broadcast our desires to a core of inexhaustible creative potential.

So you can be inspired to make the most brilliant discoveries, the wisest decisions, and by broadcasting your thoughts you can actually change and shape your life so that you fulfill your wildest desires and innermost dreams.

And when we use our minds to broadcast what we want, that core will create it for us and send it to us.

**This is NOT the Law of Attraction, or some other "metaphysical" BS.**

I'm prepared to explain exactly how this works, and show you how you can use this "power" to get anything you want in life.

Before I start explaining I want to tell you... it could get a little confusing.

We are going to be talking about some high level scientific concepts, including quantum physics, and brain anatomy.

I'm not a physicist or a doctor, but I have studied what a number of very competent physicist and doctors have written about these subjects. I will try to keep it understandable.

I want you to know, however, even if you get a bit confused...stick with me. By the end of this presentation it will make sense.

I understand nobody likes the feeling of being confused and sometimes people will tune out if they feel it. I am going to ask you to resist that urge.

Recognize, confusion is simply your mind working to understand something.

When you feel confused about a subject it means you're **about to have a break through** of understanding about that subject. Ignoring the subject just guarantees you will never **grow as a person**.

Facing that confusion and making yourself work to understand will **expand your mind** and make you **grow as a person**.

So even if you feel confused, bear with me, and what you will learn over the next few minutes will indelibly change your life forever!

As unbelievable as it might seem, science is quickly proving that Tesla was correct... we can draw knowledge and information from the universe, and you can **broadcast your desires to the universe** and see the universe change based on our interaction with it.

That means, once you understand the Tesla Code, you'll be able to live the life you've dreamed of.

More money, the perfect mate, a better job...whatever you want it can be yours so quickly it might scare you!

And the exciting thing is with modern instruments we can measure and observe the truth of the Tesla Code. We can actually see and record the universe changing at the at the most fundamental levels as a result of the Tesla Code.

As a very basic example, Dr. Quantum, otherwise known as physicist Fred Alan Wolf, Ph.D., gives a beautiful explanation of the Double Slit Experiment.

In the double slit experiment, physicists shoot electrons, the tiniest building block of our universe, at 2 slits in a barrier. Some of the electrons pass through slit 1, some through slit 2 and some bounce off the barrier.

Behind the barrier with slits is another barrier which is treated so it will record where the electrons strike.

When the scientist actively observe the experiment in action, everything works like it should. But when scientist let the experiment run and only observe the recorded results on the second barrier, something amazing happens.

The electrons show a wave interference pattern on the second barrier. The only way that could happen is if the electron went through each slit separately, both slits and neither slit all at the same time.

Huh!?! How could a single electron go through each slit, both slits and neither slit, all at the same time?

In other words, every possible outcome exists at the same time...

...until the scientists watch or record the experiment in action. Once they do, the electrons go back to behaving like normal.

In other words, the scientists interaction with the universe changed the universe at the smallest level. The scientists didn't want any particular outcome, it just happened as a result of their interaction/observation of the electrons.

If simply watching the electrons, with no expectation or desire about the outcome, changes the universe, what do you think can happen when we focus on a specific outcome?

The answer is, we can change the universe at the most fundamental levels, which allows us to create and get anything we want out of life.

I know it seems mind boggling, but stick with me, because I'm going to prove it to you!

Let's set the double slit experiment to the side for just a minute and we'll get back to it. At this point, just remember, the electrons existed in quantum super position, which means every possibility was happening at the same time.

I want to quickly point out, the flow of electrons, the smallest units of matter in the universe, is what creates electricity, so is there any wonder Tesla did so much theoretical and practical work with electricity? Tesla understood the power of energy and knew...

## The universe would only be understood when we started to study energy.

He knew the tick tock version of the universe, the Newtonian understanding of the universe, was hogwash... and he as much as said so when he wrote, "The present is theirs; the future, for which I really worked, is mine."

Tesla knew he was uncovering the secrets of the universe in his research.

Sure he put those secrets to practical use and sold his inventions for money, only in order to live in an industrialized world.

The truth is, he was never interested in money or fame. As a matter of fact he was notorious for allowing people to violate his patents with impunity.

He did what he did to benefit mankind, not to get rich.

Of all his discoveries, his most powerful was the understanding that the entire universe is energy and is available to and subject to your mind.

Tesla used that discovery to get everything he ever wanted... to become the most brilliant man who has ever walked the

And now, I have uncovered how you can use his discovery to get anything in life you want.

Money

Empowerment

Happiness

Love

You name it and you can have it, **ON ONE CONDITION...**

## You Must Promise to Only Use These Secrets for Good!

Let me introduce myself. My name is Alex West. And for the last 22 years I have studied what makes successful people successful and, maybe more importantly, why failures fail.

What is it that separates the top 5% in any area of life from the bottom 95%.

And I'm not **just** talking about money. I'm talking about relationships, marriages, athletic endeavors, career advancement, intellectual pursuits... and, of course, money.

Look, I'm fine if you want more money.

Having spent a good portion of my life without any, I understand the feeling.

That said, there's a difference between the healthy desire for a more abundant life, and the destructive desire of unquenchable greed.

If you know that enough will never be enough for you... I will ask you to stop here and move on with your life.

It's impossible to have a healthy, balanced life when you're just a bottomless pit for material "stuff."

That said, when people say, "I don't care about money," I know two things.

First, they are broke. And second, they do care about the things that

them, they just don't know how to get more money to

For example, we all want a safe place to live, which we can be proud of.

We all want to be able to provide for some reasonable level of material comfort in our lives.

We all want to feel safe that we can pay our bills and have some left over for entertainment and to save for when we can no longer work.

We all want to have enough financial, spiritual, and emotional abundance that we can help our friends and family when they need it.

Those are healthy and reasonable desires, and no one should be ashamed of having them!

## Tesla Code Secrets can deliver these things... and so much more!

It can help you maintain a youthful appearance, help make sure your relationships stay strong, it can bring love into your life and ensure that loving relationship stays loving and powerful and inspirational.

Tesla Code Secrets can deliver anything and everything you want into your life, easily and quicker than you could possibly imagine!

## How Tesla Code Secrets Works

Tesla Code Secrets works because of our conscious mind, and our consciousness. I know you've likely heard a lot about your subconscious mind, and it is important in some ways.

But the Tesla Code is activated in the conscious mind.

For example, Dr. Dean Radin points out that simply "wishing" can affect the outcome of a random number generator.

According to Dr. Radin, since the 60's one experiment has been repeated over and over again. Scientists would take a random number generator, which generates random bytes or 1's and 0's.

When run normally, the generators would create approximately 50% 1's and 50% 0's.

Scientist then told people to try and get the generator to produce more 1's or more 0's.

The question is, does it affect the generators when someone wishes for more 1's or 0's?

# When evaluating all the data... the answer is clearly, YES!

In short, people imagined something they wanted, used their conscious mind to focus on that outcome, and the universe made that outcome a reality.

And that power, the power to envision something, to conceive it in your imagination, is exactly how the Tesla Code works.

And here's the most exciting part, you don't need to spend years practicing meditation or seek out a scientist like Dr. Tiller in order to use the Tesla Code.

You just need 10-15 minutes a day, for a few weeks, and you'll be able to use the Tesla Code to get anything you want out of life!

## Our imagination is controlled by our conscious mind

Without a conscious mind there is no imagination. We imagine with intent.

Close your eyes and imagine the taste of strawberries. If you imagine vividly enough, your mouth will actually start watering and you'll taste strawberries.

Imagination is the only thing "located" in our conscious mind. It's where our consciousness is found, too.

Webster's Dictionary defines "consciousness" as:

1. the state of being conscious; aware of one's own feelings, what is happening around one, etc.
2. the totality of one's thoughts feelings and impressions; conscious mind

In other words, consciousness is being self aware.

And it is our conscious mind which is aware of itself and of feelings we are feeling, etc... not our unconscious, or instinctual mind.

Dogs, while very loving, are not aware of their feelings like humans are.

That's the major difference between humans and animals, and it is why the Bible says humans were created in the image of God.

And that is what I reveal in my new book:

# Tesla Code Secrets: How to Easily and Quickly Shape Your World and Get Anything You Want From Life.

In the conscious mind we find the secret to accessing infinite knowledge and, almost magical, creative ability.

We know, from the double slit experiment, that our observation changes the outcome of the experiment dramatically.

When the experiment isn't watched or measured while it was taking place, every possible outcome seemed to exist at the same time.

However, when the experiment was measured while it was happening, the electrons acted exactly like the scientist expected them to in the first place... like tiny little pieces of matter.

This change from all possible outcomes to a single outcome is called a "quantum wave function collapse," and it means reality has changed from all possible outcomes to a single outcome which has become real.

The question is, why does this happen when scientists are watching the double slits and not happen when they aren't?

Bear with me now, because we have to take a trip deep into your brain for me to explain.

You see, your brain is a network of neurons (brain cells), which "talk" to each other via small electric impulses that move over synapses.

Each neuron can talk with up to 10000 other neurons over the synapses. This process of neurons talking to each other is how we remember things.

Here's the crazy part, each neuron is filled with small structures called Microtubules .

The microtubules are made of small peanut shaped proteins and communicate with each other in a similar way that a computer would communicate with other computers on the same computer matrix.

For the last 20 years, Sir Roger Penrose and Stuart Hammeroff have put forth a theory, which is through experiments gaining

more and more proof, that these microtubules create consciousness by facilitating approximately 40 “quantum wave function collapses” per second.

(Remember, a quantum wave function is when all possible outcomes “collapses” into one specific outcome.)

I know this might be very confusing, but recall what we talked about at the beginning of this presentation. Confusion is simply the feeling we get when our brains are about to have a massive breakthrough in a totally new era of learning.

If you are feeling confused, get excited! It means you are about to have a massive breakthrough... it means your life is very close to changing, for the better, forever!

Stay with me and let's experience this breakthrough together...

We said before, consciousness is exactly what differentiates us from the rest of the animals on Earth, and we know our consciousness is found in our conscious mind.

It seems reasonable that this quantum collapse at the microtubule level of the brain could explain why observing the double slit experiment changes the behavior of the electrons by creating a quantum wave function collapse.

## What all this means for you...

Let's skip all the science and get to the point... what does this mean for you in your life?

If we look at the work of several different scientists, we come up with a shocking conclusion...

Our conscious mind is inseparably linked to the world around us at the most fundamental (quantum) level.

And the conscious mind can exert influence and even control over the world around us at that quantum level. That is clear based on the results of the double slit experiment.

The most exciting part is, we control our conscious mind.

The ramifications are shocking and almost, unbelievable... except we see what Tesla was able to accomplish, we can see the double slit experiment, and it is clear, from Penrose and Hammeroff, that consciousness is tied to the quantum world.

With a small amount of training, and a little concentrated effort on your part, you can use the Tesla Code to bend reality to your desires, by just using your conscious mind.

You want a promotion at work, want supernatural health and vitality (Tesla only slept about 2 hours a night and lived to 86 years old when the average lifespan was only 62.4 ).

How would you like to instantly rid yourself of minor aches and pains....

What could you do with a photographic memory?

How about the ability to gain swift and absolute control over others? I'm not talking about some silly mesmerizing hypnosis nonsense, I'm talking about using

your mind to make others, seemingly, happily help you.

What could you do if you always knew what to do in any situation?

Remember what Tesla said about a universal core from which we gain knowledge strength and inspiration?

Imagine what you could do if you could access that core at will, so you knew exactly what to do in any situation!

Now you can easily, accomplish all that and more in my new course....

**Today \$39.95 U.P. \$97**

The banner displays several books including 'The Power of Belief', 'The Law of Success', 'Tesla Code Secrets', 'The Success Code', 'Think and Grow Rich', and 'On Hill Top Voice'. A price tag indicates a special offer of \$39.95, down from the original price of \$97.

The first question I always get when I talk about Tesla Code Secrets is, "If the world changes that quickly and easily based on our conscious thought, why don't I have everything I want already?"

It's a fair question but demonstrates a misunderstanding of the Code. You see, the world doesn't just materialize what you want and drop it in your lap.

What happens when you concentrate on something you want, the Tesla Code sets in motion the events necessary for you to get it.

Think of it this way, not everything happens in just one quantum collapse. It happens over the course of hundreds or thousands or maybe millions or billions of quantum collapses.

It depends on what you want and how complicated it is to bring it to you.

you to receive things that take longer, you have to keep your mind focused on the goal....

not every second of every day, but focused enough to make sure you keep the events you set in motion moving in your direction.

If your mind is all over the place like a jumping bean, how can you expect anything to actually come into being?

So one of the first lessons in Tesla Code Secrets is to learn to focus your mind.

You need to make sure you know what you want, then, through the power you can unleash after you fully understand the Tesla Code, you will bring these desires into your life so quickly it may scare you.

It has scared several of my students in the past.

## People like Tim & Esther:

" Alex really knows his stuff. We met Alex before he even created Tesla Code Secrets, but the lessons he taught us years ago really helped us out of a rut.

We've been struggling with our dream of retiring comfortably, and it seemed as though everything we had done before we met Alex wasn't going to get us any closer to that dream.

But after speaking to Alex and taking his advice to heart we were able to turn our life around. We managed to put our two kids through college debt-free, and we're very happy with our life here in the Bahamas.

If Alex was able to help us out of our rut, we're sure that the Tesla Code Secrets program can work wonders for you.

## Or Jennifer from New Orleans:

" I simply loved the Tesla Code Secrets' clear cut system to enhancing my thought process, priming me for success.

Since using the program, I've improved my relationship with my husband on multiple counts and at the same time done extremely well at work. I've been promoted just last month and heard that

I'll be getting a nice big bonus end of year.

I never knew it could be this easy. Thank you so much for this Alex." - Jennifer Green

## Or even Andrew:

"Thank you so much Alex. You have revealed to me that success doesn't have to be hard; it only takes a simple shift in my thought processes.

And this shift has triggered a phenomenal change in my life and allowed me to live the dream lifestyle of happiness, wealth and success...

Your Tesla Code Secrets program has been an easy-to-read, practical life enrichment course that has changed my life in ways I never thought possible." - Andrew Langfield

Here's the really exciting part, I have managed to distill the Tesla Code into 18 simple lessons, and have even found a way to create a multiplier effect, so even the most outrageous and ridiculous desires can be created in minimum time.

## What all this means for you...

As hard as it is to believe all those things, I can promise you they are true, and easily done.

Were I to teach this program in a group setting, I wouldn't even consider allowing anyone into the seminar for less than \$995, and more likely somewhere around \$1995.

And I could easily make an online course available for somewhere between \$295-\$495.

Instead, you get everything in my home study course, Tesla Code Secrets, for just \$39.95!

The most exciting thing, Tesla Code Secrets doesn't require years of work, or hours a day of meditation or any special skills at all.

It's simple, you go through the 18 lessons which you'll have instant access to once you click the button below.

You spend a week on each lesson. Read the lesson everyday.

At the end of each lesson there is a very easy process to go through in order to activate that lesson. You should work through that process, even if you are not facing the situation the process describes.

Simply use your imagination.

**CLICKBANK**<sup>®</sup>  
TRUSTED • SECURE

about 3-5 minutes a day.

At the end of the week, go to the next lesson.

It's as simple as that!

# In 18 weeks you'll be able to activate the Tesla Code at will, to activate and manifest anything you want in your life.

Here's the hard truth, if taking about 15-20 minutes to read a few pages and 3-5 minutes to imagine your way through a process is too much for you, you likely just need to learn to live with what you have and forget about all of your dreams.

If you won't dedicate that little time and that little effort to foster the power within you so you can create anything you want in this life, you'll never have anything you desire.

And I would say you don't even really desire what you think you desire. If that is you, you certainly don't deserve anything more out of life!

Here's the place where you need to ask yourself, do I really want what I say I want?

Am I the type of person who makes decisions and works towards my goals...

Or am I a worthless couch potato who will forever talk about what I want but never do anything to get it?

## If you are still with me, I suspect I know the answer!

When you click the button below and start using Tesla Code Secrets, I want to make sure you have everything you need to make massive changes right away, so I'm going to include:

**Napoleon Hill's Success Compendium.**

## Bonus 1

Napoleon Hill spent 20 years interviewing and studying the most successful and richest people of his day, including the world's first billionaire, John D Rockefeller.

What he found has become gospel for every great self made millionaire, multimillionaire and billionaire entrepreneur since.

In an interview of top CEOs Hill's book Think and Grow Rich was named as the second most influential book, next to the Bible! That's how powerful his work is.

If it's your desire to use Tesla Code Secrets to become rich, as I suspect it is for most people, then Hill's work is a must.

I have invested a substantial sum of money into securing the rights to give you, FREE of charge, Hill's compendium, which includes Think and Grow Rich (both written and in audio book), The Laws of Success, and Hill's audio program Napoleon Hill's Success Philosophies.

Without Tesla Code Secrets, this collection of Hill's work is invaluable.

When combined with the Tesla Code... you won't be able to help but get rich!

In addition, when you decide to make the embarrassingly modest investment in Tesla Code Secrets, I will include another of my programs, "The Power of Belief."

In the Power of Belief, you will learn how to change your mental programming to ensure your life is easy, fun and carefree.

Look, the Tesla Code can and will easily give you everything you want. However, most people have limiting beliefs about themselves and the world.

That can interfere with the Tesla Code. You can use the code and through persistence those beliefs will eventually change.

It would be dishonest of me, however, not to show you how to quickly and easily change those beliefs.

You don't need the Power of Belief to make Tesla Code Secrets work, but it's like lubricating a gear...with it everything works better and more efficiently.

The Power of Belief, when made available to the public, will cost \$97, but you get a full and complete copy Free of charge when you invest in yourself and decide to join the thousands of other people who have used Tesla Code Secrets to change their lives forever.
