

The China Secret

The Little Known 'The China Secret' That Pillages A \$1.4Billion Dollar Market. You've probably heard of FB Messenger - or even used it yourself. It's a simple messaging app that lets you keep in touch with friends & family. But you probably haven't heard much about the fact that within Messenger lies the greatest profit opportunity history has ever seen.

It all started in China. In China, the majority of online commerce happens through a messaging platform through WeChat. Last year, WeChat generated over \$40 billion in advertising revenue. Let that sink in. You've probably never heard of WeChat - yet the advertising revenue is completely undeniable. And for the first time ever. This kind of opportunity is available to the rest of the world.

You see, quietly over the past few months, FB have begun rolling out advanced commerce & advertising features inside of FB Messenger. And herein lies our opportunity. Already, the worldwide Messenger revenue opportunity stands at around \$1.4billion - a small slice of the \$40billion WeChat advertising empire in China, but still a hefty sum. And here's the kicker. Nobody has caught on to this yet.

Messenger Marketing is BRAND NEW. You can get started for almost NO COST. It's the most powerful method for producing "profit on demand" I've ever seen - possibly ever in history. By 2020, the global Messenger Marketing industry is expected to be worth \$10billion. That's almost 10x from where it stands today. China is far ahead of the game - but things are catching up rapidly... and the rest of the world have yet to take notice. I spent an entire month, head down, working away on how to tap in to this opportunity myself. And what I found has changed the course of my life forever.

You must be thinking that all sounds great and that I'm some kind of super genius, but...I Can't Take Credit For Everything. The China Secret was not really my doing. In fact, after I discovered the primary profit method the China Secret exploits, I consulted a group of unbelievably generous Chinese computer science graduates based in Austin, Texas. Their support and effort has been invaluable, and I will forever be in their debt. You have Li Jie and his team to thank for this - I could have never figured out the finer details without them reverse engineering what I found.

Why It's Just \$9 I'm only charging \$9 for the complete China Secret profit system, and not giving it away, for 3 reasons.

- \$9 puts the secret within reach of the vast majority of people and for those who need it most.
- Anyone who's not serious enough about their personal wealth and success to invest \$9 into The China Secret doesn't deserve one of the 100 copies available... plain and simple.
- Anyone who is serious enough to put down the price of a McDonalds for 2 and obtain The China Secret has the opportunity to transform the life of theirs & their loved ones almost overnight.

If you're thinking, "\$9 is so cheap! What's the catch?", then you'd be right...There is a small catch. After you utilise The China Secret and experience the dead-simple wealth creation power of Messenger Marketing, I want you to email me a testimonial. You see, I'm working on a book about my life story and how I stumbled upon this whole crazy "secret" industry... and honestly, I think one day it could be a movie. It's that insane.

But I need testimonials - as many of them as possible. That's all I ask. So if you're ready to finally see the success you deserve, then hit the big "happy orange" Get Started Now button below
