FREQUENTLY ASKED QUESTIONS

If you're still here, you might have some questions...

Well, we've got answers...

What am I buying? A DVD? A course? A book?

You're buying an e-course i.e. a digital ebook. You're free to print it out and make as many copies as you want if you'd like to hold the information in your hands.

We sell a digital product rather than a physical book so we can keep our products affordable for you... and eliminate the shipping charge.

This also give us the ability to get the information you're looking for instantly rather than having to wait 3-5 days during which people often lose interest.

Is my purchase secure?

Very. All of our orders are processed through Clickbank, the leading secure online retailer of digital products. They process hundreds of millions of transactions without a hitch and they use security systems just like the ones at national banks.

Can I really eat all my favorite foods?

The answer is yes, with a twist.

You can eat the food you do now. No changes. And still lose weight. I don't recommend you eat packaged junk food every day like Twinkees and Haagen Daz, because it's simply not healthy. But if you do want that once in a while, that's okay and it won't interfere with the incredible progress you will see.

In some cases, we'll show you how to tweak the sweets to help them make you lose weight even faster, and these tweaks are available for almost anything you might want to eat.

You will also, at times, be able to eat store-bought goodies, but those will be limited to certain times.

Rest assured, we haven't received a complaint yet about these "restrictions". In fact, everyone is having a ball.

Is The Favorite Food Diet hard to follow?

As my clients will gladly tell you, the Favorite Food Diet is the easiest diet they've ever tried.

And it's as easy as it is fun.

We've spent two and a half years testing this system on men and women from all walks of life to ensure this diet is the simplest and tastiest ever released.

The reaction we most often receive is "I don't feel like I'm on a diet, but the weight is coming off"

And that's what the Favorite Food Diet is all about. :)

How Often Can I Cheat?

Well there's two kinds of cheating: There's the desserts made from scratch with our "secret ingredient". There there's your typical cheat days.

Between the two of them you'll be eating your favorite foods a heck of a lot.

Most people would never believe a diet like this could make you lose weight, until they try it themselves.

That's thanks to the cutting-edge science behind the program...
